

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

PAMPHLETS ESPECIALLY USEFUL IN CHILD HEALTH WORK OBTAINABLE IN LARGE QUANTITIES.

The attention of State health authorities and other persons interested in child health work is called to the reprints listed below, which can be purchased in quantity. In view of the large demand for these pamphlets, and the restriction imposed by law on the free distribution of publications by the Public Health Service, the Superintendent of Documents of the Government Printing Office has arranged to supply them in the quantities and at the prices indicated. As long as the supply lasts, single sample copies of these publications can be obtained free by addressing the Surgeon General, United States Public Health Service, Washington, D. C. Purchase can be made only from the Superintendent of Documents, Government Printing Office, Washington, D. C.

Children's Teeth, a Community Responsibility. 19 pages; 1 plate. Deals with the causes of decay in teeth, and presents a practicable plan for carrying on preventive and correctional work by both centralized and itinerant clinics. (Reprint No. 622.) Prices: 1,000 copies, \$25; each additional 1,000 copies, \$13.

The Fate of the First Molar. 6 pages; 2 text figures. Emphasizes the importance of caring for the temporary teeth and of watching the first permanent molar (the 6-year molar) for decay—the tooth most frequently found to be carious, the one most neglected, and the one most frequently lost. (Reprint No. 645.) Prices: 1,000 copies, \$8; each additional 1,000 copies, \$4.

Good Teeth: The Importance of Good Teeth and the Prevention of Decay. 10 pages. Deals with the care of the teeth, both temporary and permanent, and points out how diseased teeth may cause serious illness. (Reprint No. 707.) Prices: 1,000 copies, \$15; each additional 1,000 copies, \$8.

The School Nurse: Her Duties and Responsibilities. 15 pages. Presents a brief review of school health supervision and gives a useful outline of the duties of the school nurse. (Reprint No. 783.) Prices: 1,000 copies, \$12; each additional 1,000 copies, \$7.25.

The Care of Your Baby. 41 pages. Presents, in popular form, instructions concerning the prenatal care of the mother; but deals principally with the care and feeding of the baby. (Reprint No. 727.) Prices: 1,000 copies, \$33; each additional 1,000 copies, \$19.
